

System Administration - Introduction

DISPRAX

::: OVERVIEW

This course will provide you with a background to the UNIX operating system allowing you to perform basic system administration tasks.

::: AREAS COVERED

- Key UNIX commands to enable you to navigate in the UNIX shell environment
- Be able to use basic UNIX file and standard commands
- Using the "vi" text editor to modify user profiles
- Create new user logins in UNIX and TIMMS
- Understand printer queues
- Setting up user access / blocking in TIMMS

::: PRIOR KNOWLEDGE

This course assumes an understanding of business systems, and how your site uses TIMMS. An understanding or previous use of DOS would be beneficial.

::: WHO WILL BENEFIT?

- TIMMS Administrator
- Network Administrator

::: BENEFITS OF TRAINING

Regular training sessions are critical to ensuring your staff maximise their usage of the TIMMS system.

Our training is performed by **TIMMS certified Training Consultants** in an environment that promotes discussion and learning, helping to:

- Gain a deeper understanding of how the TIMMS system works
- Build skills and confidence
- Improve usage of TIMMS to maximise efficiency and accuracy

Workshop level:

- Day-to-Day Processing
- **Intermediate**
- Advanced Setup

Course Code: ADM1

Course Duration: 3 hours
